- Lowering the barriers to affordable care
- Delivering broad-based service including preventative, dental, behavioral, and primary health care

## About Us

Mountain Community Health became a Federally Qualified Health Center in 2013. We are a nonprofit community health center, serving both the acute and chronic care needs of our patients, focusing on the goal of health, not the simple absence of disease.

Mountain Community Health is a Patient-Centered Medical Home where we provide coordinated and comprehensive health care. We provide care plans that include patient-generated goals and specialty referrals.
